# ■ ABOUT KINGMAN GROUP

At Kingman Group we are a Climate Active certified organisation with a purpose to provide superior service and innovative product solutions for our partners. Over the years we have moved and grown, delivering superior signage solutions for some of WA's most iconic construction projects. Now, Kingman Group has evolved to deliver customisable signage, digital, EVC and solar cladding product solutions.

We have a team of 75 dedicated experts who are trusted by some of the biggest Australian and global brands to deliver large and complex projects on time and on budget.

# ■ KEY SERVICES

## DESIGN

Kingman has a complete in-house design studio equipped with a talented team of graphic designers, draftsmen, and digital content creators. We have the capability to transform any design concept into reality.

## FABRICATE

Our team of fabricators ranks among the industry's most highly skilled professionals, operating in a fully-equipped factory capable of producing a wide range of products from initial design to final completion.

## PROJECT MANAGEMENT

Our accomplished project managers, operating within a well-equipped environment, oversee projects from inception to completion with a keen eye for detail and a commitment to ensuring successful project delivery.

## INSTALL

Our installation team excels in using industry-leading techniques for signage, digital signage, EVC stations, and solar cladding installation. We meticulously plan every aspect of project delivery for precision.

## SUPPORT

Our in-house team of experts is fully equipped with training and after-service support for all our products and services, ensuring comprehensive customer satisfaction and product knowledge.

# WHAT WE DO

## Signage Solutions

At Kingman Group, we have delivered some of the most impressive signage projects nationally and throughout Western Australia since 1984.

We have built a strong reputation through our exceptional customer service, and dedication to delivering the best quality signage in the industry, with the most innovative solutions to always deliver our clients' vision.

SIGNS

## Cladding Solutions

We've partnered with Mitrex in Canada, pioneers in seamlessly integrating solar panels into building facades, to offer this option to the Australian Market.

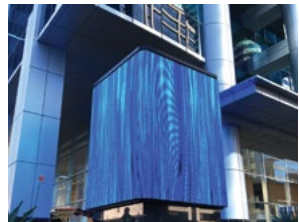

This revolutionary approach, called BIPV systems, empowers architects, engineers, building owners, and investors to harness solar energy without sacrificing aesthetics.

CLADDING

## Digital Solutions

Kingman Group offers a complete digital signage solution, featuring state-of-the-art screens, content creation, tech support, and analytics software to captivate clients and streamline marketing. Our Perth team enhances your core signage with the latest digital solutions.

DIGITAL

## EVC Solutions

Kingman's EVC range goes beyond chargers, with a strong emphasis on elevating the customer experience.

If you're considering an EV Solution, we can create eco-friendly charging ecosystems that offer shade, solar, seating, and more. This adds a unique user experience and eco-friendly architectural statement to impress visitors and highlight your environmental commitment.

EVC

## ■ OUR MISSION STATEMENT

### Our MISSION

To consistently provide superior service and innovative product solutions for our commercial partners.

### Our VISION

Always be curious. Work together to deliver sustainable product solutions and build a better future.

### Our VALUES

#### **We are constantly curious**

Always learning, growing and seeking innovation.

#### **We succeed together**

Collaborating with our peers and partners to achieve the best outcome.

#### **We act with respect**

Embracing diversity, equality and inclusion.

#### **We aim for excellence**

Consistently providing superior service and never compromising on quality.

#### **We prioritise health and wellbeing**

Taking responsibility and thinking safety first.

#### **We strive to build a better future**

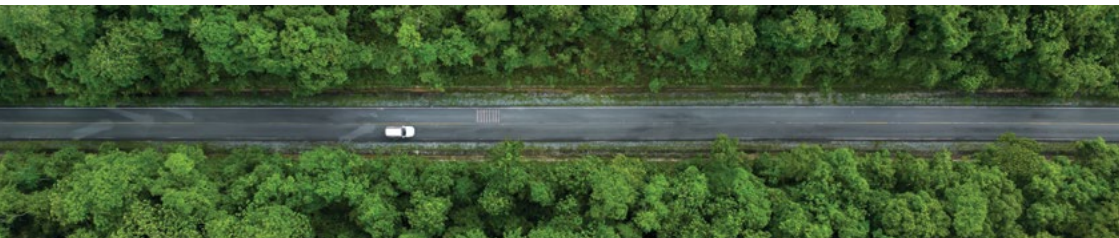

Being environmentally aware and creating more sustainable product solutions.

## ■ OUR ENVIRONMENTAL COMMITMENT

As a Climate Active Member, Kingman has committed to reducing emissions within our organisation by a minimum of 30% over ten years (from 2021 our base year).

Kingman's tier-one clients have an ongoing ambition to decarbonise the built environment, which can only be achieved through collaboration & engagement within the supply chain.

As a certified Climate Active carbon neutral organisation, Kingman will be a sought-after supplier, showcasing a shared understanding and commitment to climate change, with the ability to reduce emissions on any project.

## ■ OUR PROMISE

Our promise at Kingman Group is founded on an unwavering commitment to excellence, reliability, and innovation. With a dedicated team of experts, state-of-the-art facilities, and a customer-centric approach, we pledge to consistently deliver top-tier products and services that exceed expectations.

We acknowledge that 40% of global emissions are produced by commercial buildings and we need to play our role to advance sustainable building practice. We promise to resolutely innovate and introduce sustainable and eco-friendly products that can be added to your commercial projects, and contribute to emissions reduction.
